## THE CANDIDATES.

They are in the Field Almost  
Without Limit.

### THE VARIOUS MUNICIPAL PLUMS

Will be Contested for by a Host of Republican Aspirants—Not Many Democrats Ready for the Sacrifice—A List of the Announced Candidates on Both Sides of the Political Fence—The Mode of Selection Will Probably be by Primary Elections.

The candidate for the city office is now exposed to view. As he tarries round the corner in wild pursuit of you.

As the time draws near for the municipal primaries, which nominate the various city offices, the aspirants for positions are making a lively canvass for public favor, and they can be seen at all hours button-holing their friends on the corners and telling them "how it is."

The big fight will be made at the Republican primaries, as it is generally conceded that the Democrats have little chance for success, consequently there are few announcements for the nominations on that side of the fence. For every office on the Republican side, there are many candidates, and all seem confident of victory. All mentioned so far are good men and the offices will be filled with credit both to the community and to the officer himself.

#### The Mayoralty.

For mayor four Republicans have so far been mentioned. They are, James P. Maxwell, E. P. Wheat, George W. Connel and Mayor B. F. Caldwell.

Mr. Connel is a member of the firm of Tappan & Connel, photographers, and is well known as a business man. He is an ardent Republican and has done good work for the party in past campaigns. He is a young man and has a large following of friends, who are hard at work to secure his nomination.

Mr. James P. Maxwell is well known in politics, having represented the Seventh ward in the second branch of council, which honored him by making him its president. He has been a faithful member of council and has made an enviable record for himself.

Mr. E. P. Wheat is an Eighth warder, and has been a hard working Republican for years. He represented the ward in the second branch of council for some time. He has a large following of friends in all parts of the city, who have urged him to announce himself a candidate for mayor.

Mayor B. F. Caldwell needs no introduction. He has served the people long enough to allow his administration of affairs to speak for him. He is not an avowed candidate, but says he will serve if his friends wish to nominate him. His name will be on the primaries ticket.

The Democratic candidates for mayor are scarce. There is some talk of running Judge George Boyd, but it is understood that he refuses to stand for the nomination. W. C. Handlan, Jr., has also been spoken of, but has not given his consent. Ex-Mayor Seabright will not say yes or no to the question whether he is a candidate, but will leave it with his friends, and it is more than likely he will be the man. Mr. Will Irwin positively declines to allow his name to be used in that connection.

#### City Clerk.

For city clerk those mentioned are Charles H. Watkins, George Bowman, John G. Leasure, William Bowers and William F. Steinbocker.

Mr. Watkins is at present assistant city clerk, under Mr. Dannenberg, and resides on the Island. Mr. Leasure is from the Sixth ward, and the other gentlemen named come from the Eighth ward.

The only name mentioned on the Democratic side for clerk is that of William C. Handlan, Jr., of the Eighth ward, who is an ardent party worker and would make the best candidate they could name.

#### Chief of Police.

The Republicans have two candidates for chief this year. They are Captain Thomas D. Bennett, who has served the public so faithfully in that office during the past two years, and Mr. Samuel Johnson, of the South Side.

The Democrats have more than enough candidates for this place on the ticket. Ex-Chief Robert McNichol will again try to capture the plum, and probably be the Democratic nominee. His opponents are Messrs. Andy Stoetzer, John Shortis and Bob Purcell.

#### Wharfmaster.

Only two names have been suggested for wharfmaster, and both are Republicans, Mr. J. W. Norrington, the present incumbent, and Mr. E. H. Crookard, of the wharf boat force.

Candidates for council in the different wards are numerous, and the voters will have very little trouble in selecting good men to represent the various wards.

#### Fire Marshal.

The election of chief of the fire department comes up before council next month, and there is a lively scramble on for that place. Seven men have been announced as candidates and no matter who is selected, the city is sure of a careful and safe administration of affairs in this very important department.

The candidates are, Alex Beabout, Robert Cline, James A. Dunning, William M. McNabb, Charles Kievis, James Mc Clement and William Glaser.

The Democratic candidate will be Frank Healy, the present chief. Neither of the executive committees have met to decide whether the candidates will be selected at primaries or conventions, but it is likely that primaries will be held and the fight made at the polls as heretofore. As there is not much of a fight in the Democratic camp, a convention will probably be substituted, the delegates being selected at the primaries.

## RIVER IMPROVEMENT.

Wheeling Delegates who Attended the Pittsburgh Convention are Enthusiastic—The 1898 Meeting May be Held in Wheeling.

The gentlemen who attended the meeting of the Ohio Valley Improvement Association at Pittsburgh, have returned home and every one of them is in high spirits over the gathering and the effect it will have on the movement. An Intelligencer reporter saw a number of them yesterday and all expressed themselves freely in regard to the meeting and its results.

Mr. Randolph Stalaker is enthusiastic over the meeting and said it was one of the most representative bodies it has ever been his good fortune to meet with. Every point along the river was represented by men who were earnest and in the work heart and soul. The effect he thought would be felt, and he is satisfied the work of river improvement in the Ohio valley so well begun last year will continue until the Ohio will be the finest water way in the country.

Mr. George W. Lutz said the representative of the Pittsburgh and Lake Erie canal project were in the movement with the river men for keeps. It had been feared that they might be averse to joining with them, thinking the result would hurt the chances of canal improvements, but to the surprise of all they joined in and gave a helping hand all the way through the proceedings and made many valuable suggestions.

Mr. Henry Haer did not have much time to talk on the subject, but said he was more than satisfied with the result of the meeting.

Mr. A. D. Howe, the machinery man of South Main street, was very enthusiastic over the project discussed at the convention. "People don't understand the scheme," said he. "They think that only the river towns will benefit, whereas the country at large will be benefited, and to think that the river towns will be the only ones benefitted is a gross mistake and ignorance of the matter. Public sentiment will have to be educated and the Pittsburgh convention will accomplish much in this direction. That convention was an intensely enthusiastic one, and in the discussions the main object of our gathering there was kept well to the fore. It was important also that it attracted the attention of many people heretofore indifferent, and I look for increased interest in the convention next year at Evansville, Ind. However, in the interim, the agitation must be kept up and though it takes years, I have no doubt of ultimate success. Governor MacCorkle's speech was an eloquent exposition of the benefits to be derived from the waterway scheme proposed."

Mr. George Wise wasn't on the excursion of Wednesday when the delegates showed enthusiasm in a most pronounced manner, but he saw enough to assure him the movement would eventually amount to a great deal.

Mr. Joseph C. Brady, on the other hand, was on the excursion and speaks enthusiastically of the outlook for substantial accomplishment in the future.

The other members of the Wheeling committee spoke in the same strain and all expressed themselves in favor of trying to have the meeting of the association in Wheeling in 1898. Fairmont is also trying to get the association to come there that year.

The next meeting will be held at Evansville and it promises to be the largest yet held. There is a movement on foot to secure the steamer Virginia or the new Queen City, and make the trip from Pittsburgh to Evansville by water, stopping to take on the different delegations. The Evansville meeting will be an important one and a great pressure will be brought to bear upon the new Congress to make additional appropriations for the continuance of improvements which by that time will be well under way.

## SOUTHWEST OIL NEWS.

Dolomite in Various Parts of the West Virginia Oil Fields.

In the Big Flint country, in Doddridge county, Murphy, Jennings & Company's No. 27 is holding up at better than three hundred barrels a day. No. 47 on the same tract is due to get the sand to-morrow.

The Kanawha Oil Company reports no change at its mills No. 4. It will probably be some time before the well will be drilled deeper. No. 5 on the same tract is drilling and the Kanawha company will start several more in the near future.

In Greene county, Pa., in the deep sand district, near New Freedom, operations are looking up a little. The Carnegie Gas Company and Guffey & Queen are starting a test well on the R. F. Tiger farm.

On the W. H. Main farm, Guffey & Queen are starting a test well, located near the South Penn Oil Company's well on the Sowers farm.

Locations for several other wells have been made in that locality. The South Penn Oil Company and J. M. Guffey have many thousands of acres under lease and all in a solid block.

A new company composed of Beaver Falls and Butler citizens has been organized and will apply for a charter to be known as the "Knob Oil Company." The headquarters of the company will be at Beaver Falls and it will operate in Sewickley township, where it has taken up a block of leases.

## An Important Difference.

To make it apparent to thousands, who think themselves ill, that they are not afflicted with any disease, but that the system simply needs cleansing, is to bring comfort home to their hearts, as a costive condition is easily cured by using Syrup of Figs. Manufactured by the California Fig Syrup Company only, and sold by all druggists.

## Catarrh

Mrs. Josephine Polhill, of Due West, S. C., had a severe case of catarrh, which finally became so deep-seated that she was entirely deaf in one ear, and part of the bone in her nose sloughed off. The best physicians treated her in vain, and she used various applications of CURED BY sprays and washes to no avail. Fourteen bottles of S. S. S. promptly reached the seat of the disease, and cured her sound and well.

S. S. S. never fails to cure a blood disease, and it is the only remedy which reaches deep-seated cases. Guaranteed pure—No vegetable matter. Bottle free; address Swift Specific Co., Atlanta, Ga.
